

## GraphXSource Accessibility Statement

Effective Date: 3/30/2026

GraphXSource is committed to ensuring digital accessibility for all users, including individuals with disabilities. We strive to continually improve the user experience for everyone and apply relevant accessibility standards where possible.

### Our Commitment:

We aim to make our websites, platforms (including ArtLocker and GraphXServer.io), and digital content accessible and usable for all individuals regardless of ability.

### Accessibility Efforts:

We actively work to improve accessibility by:

- Designing with clear structure and readable content
- Using accessible color contrasts
- Supporting keyboard navigation where possible
- Testing across devices and browsers
- Continuously reviewing and improving accessibility features

### Ongoing Improvements:

Accessibility is an ongoing effort. We are continually identifying and addressing accessibility barriers to enhance usability for all users.

### Third-Party Content:

Some third-party integrations or tools may not fully meet accessibility standards. We encourage users to contact us if they encounter any issues.

### Feedback & Assistance:

If you experience any difficulty accessing content or using our services, please let us know. We are committed to providing assistance and improving accessibility.
